& HUMANITIES

HUMANITIES is offered under our PRIME GLOBAL SCHOOL wing

INTRODUCTION

Prime International School is a high school under the supervision of Prime Educational Inc. We offer higher education in streams of science, management, and humanities (Prime Global School) and focus on the academics, skills, and personal development of our students. Our academic programs are different from the norm because we focus on combining theory classes with practical learning opportunities to maximize productivity and global competency in our students.

MISSION

The Students

To provide students with dynamic, interactive and technologically driven educative environment where clear learning outcomes and constructive feedback is given throughout the student's journey. The students will thus receive an Exciting, Stimulating and Successful student experience.

The Teachers

To offer full freedom in terms of resources bringing out their true potential when delivering high quality teaching.

The Community

To inculcate high moral and ethical values amongst the students by motivating them to collaborate with industries and communities, making them responsible citizens and ultimately good human beings.

VISION

We aspire to become one of the leading educational institutions, where students not only develops intellectually but also gain knowledge with an impact enabling them to become a global citizen.
