ABOUT US

KCMIT was established in Kathmandu in 2000 A.D. under Tribhuvan University's new direction to enter into collaboration with the private education sector to provide the most advanced education to the Nepalese students. Presently, KCMIT offers BIM and BBA programs in affiliation with Tribhuvan University. The student centric approach of our institution with academic facilities and resources are arguably the best in the nation and we are committed to offer what promising future leaders truly deserve. KCMIT aims to establish a strong academic foundation, achieve outstanding examination results and engender a mature and independent attitude vital for taking advantage of life's opportunities. KCMIT is committed to nurture high quality education and development by creating a conducive environment where students and faculties' activities are in synergy.

WHY BBA @ KCMIT ?

BBA covers a balanced curriculum between the different business disciplines, supported by the development of applied business skill and an understanding of the business world. KCMIT takes into account the latest business developments and provides.

- Dynamism to the BBA students.
- Prepares them for critical thinking and advancement.
- Build up the capacity to work independently as well as in a team.

These features will make BBA graduates professionally sound and will give them easy access to national & international masters programs and job markets.

WHY BIM @ KCMIT ?

BIM is a multi-faceted discipline that focuses on both Information Technology & Management we at KCMIT provide Professional training to BIT student by combining information technology with managerial skills. The students are prepared to proceed on to post graduate level study in Information Management within and outside the country and to take up profession in program networking, software development, banking and many more.
