

Atharva Business College was established in 2013 AD with an aim at offering different programmes in the field of management to address the need of 21st century.

It is one of the best and leading institution for the students who opt to study Bachelor of Business Administration (BBA), Bachelor of Hotel Management (BHM) and Bachelor of Health Care Management (BHCM) under the Faculty of Management.

Objective

Atharva Business College (ABC) has been committed to provide quality education with innovative principles and ideas in business management field in order to provide high valued human resource for the nation.

Hospitality, health care, business and entrepreneurship sectors have been growing day by day with the growth of the world economy. Competitions, challenges, nature and even taste & desire of valued customers too, have been changing in the same manner. In order to solve these problems and change them into opportunity, we need management leaders with innovative ideas and skills. ABC aims at fulfilling the gap between the need and human resource development.

Vision

Atharva Business College will be one of the leading institution in the field of management studies developing the qualitative human resource for the top level management, with integrated core value and market oriented skills for both the job market as well as entrepreneurship development in order to fulfill the need of the nation.

Mission

One of Nepal's leading business college, Atharva Business College prepares students to face the challenges in business management by providing management skills, leadership programs and other credit and non-credit courses based on nature, issues and time of a business. In accordance with practical exposure and rebuilds them as a self-regulated, principled, innovative leaders who are able to contribute society.

Goal

Atharva Business College (ABC) aims to produce competitive management leaders to serve the nation through its multi-faced management programs. To provide human resource through its programs who are capable of managing all sorts of businesses in this era.
