JEC

(Affiliated to TU)

Message from CEO

It gives me immense pride and pleasure to welcome you to JEC. As the CEO of Janakpur engineering colleges, I have always been committed to make JEC one of the best engineering college in Nepal. Today, JEC has its own infrastructure, well equipped lab, qualified teachers team and result oriented management team. Our graduates have been working in many government and private organization in Nepal and abroad.

We are continuously working to prove our commitment in imparting quality education so that our graduates are on par with their international counterpart and best in Nepal.

In line with our vision and mission to engineering

education with up and down we set high benchmark for our students to achieve excellence in their academic pursuit at our college. Our track record of consistently producing good percentage of pass result in the Engineering education of Nepal and much time it has given the best result in TU affiliated engineering college in Nepal.

With all our effort we firmly believe that your time at JEC will be the best investment you will make. We are confident, you will find our college among the best available. Don't be left behind. Give yourself the engineering education with us to open doors to your future.

Mission

The institute is a comprehensive higher education institution, fulfilling national and international role in providing full-time and part time programs across the whole spectrum of higher education, supported by research and scholarship in areas reflective of the institute's responsive, caring and flexible learning environment with state-of-the-art facilities and the most advanced technology available. It is committed to provide access to higher education for students of different backgrounds and to achieve quality and excellence in all aspect of its work. This commitment extends to the provision of teaching, development and consultancy services for industry and society, with due regard to the technological, commercial, social and culture needs of the community it serves.

Vision

- To turn out the engineers of academic excellence with global competencies and ethical values.
- To produce world class engineers to meet the requirement of dynamic markets of the world.
- To transform the college into a global hub for technical education.
- To develop research and development centre of excellence in engineering sector.
- To provide college-industry participation in technical education.
- To develop world class infrastructure, learning environment and good connectivity to students.

Introduction

Janakpur Engineering College (JEC), established in 2058 BS is affiliated to Tribhuvan University (TU), Nepal. It has produced number of engineers since its establishment. It offers Bachelor's program in Civil Engineering, Computer Engineering and Electronics Communication Engineering. Our all Engineering Degrees are approved by Nepal Engineering Council. The college has been managed by a strong team of professionals and academicians who posses

enough experience in educational sectors for a long time.

JEC, is a pioneer private institution providing engineering education in Nepal. All the academic and administrative facilities and infracture have been maintained as per IOE standard. Beside of teachin-learning processes, seminars, workshops and trainings are frequently conducted through the semester with field visit,

project works and field works. So, JEC assures quality education required for the students in the present context and assists them in pursuing their professional and educational goals. The institution is committed to providing quality education in various engineering disciplines keeping in mind emerging professionals needs.

We have state of the art infrastructure to foster academic excellence. Moreover, we provide vital

non-credit inputs including research and project work, sup;ementing the regular courses to met the diverse learning needs of students and improve their employability. The college feels proud of all the students who have passed out and have got well deserved positions in different Governmental and non governmental institutions in the country adn abroad.

Field Visit

Organises field visit to the students of all programs as specified in the curriculum to give exposure of the real world practice to the student so as to make them practical oriented while acquiring

knowledge in theoretical class room. This helps student more easily absorbed in the professional field after their graduation. According to the rule of TU/IOE.

Hostel Facility

JEC provides well managed and separate hostel facilities for both boys and girls who

come from local as well as different regions of the country.
