## Extra-Curricular Activities

The Extra-Curricular Activities department works with the Heads of Administration, sports department and the academic staffs and external providers to provide a rich programme of after school/ college activities to enhance quality of students as well as the goodwill of the institution. Extracurricular activities are very important these days for students taking various professional courses. They help

them to improve upon various skills as hobbies. In the process, it activates their brains. It has been observed that students who had taken part in various extracurricular activities prove themselves as smarter professionals. Extracurricular activities are not directly related to course curriculum prescribed for the students of a particular discipline. Activities and involvement of students in various clubs and organizations are important in fostering the strengths of youth. It helps young students full of energy steer away from undesirable behavior.
