After joining this college, I got to learn and explore more than what I expected. The college totally stands out of different from other colleges. It not only focuses on theoretical but much more of the practical. The opportunity and practical facilities provided in the college is unexpected that has enabled me to work with ease in real industry environment. The practical I did in my college and the work I do in the industry does not have much difference. Because of the support and guidance provided by the college, I have been awarded as outstanding trainee.

Being an admirer of hotel industry and a student who wants to pursue career in hotel industry, I choose Gateway College and I am proud of my choice. I succeeded in my first step towards my career because I held the hands of such trustworthy and reliable institute. Gateway not only educates you for the pursuit of a career but also provides general knowledge and introduces real life situations that helps people learn about life and themselves. Being a Gatewayer, I can say that Gateway life is a master blend of happiness, enjoyment, a great sense of responsibility and hard work. Gateway College has been such a right decision of my life and I will cherish this all my life. I was an empty canvas and it molded me in such a painting which I believe is marketable.

Gateway provides a great environment for those seeking for quality education with maximum practical learning. Helping students build their career in hospitality industry with immense support and guidance from all the faculty members is what Gateway about.

College life for everyone brings a new chapter; learning & preparing oneself to be professional,

a complete different world. Mine was also no different except one aspect. I entered "Gateway College of Professional Studies" with my average grades in high school level & low confidence for further perusal. However, enrollment in this college was not lesser than a second chance for me to prove myself that I am capable of much more and I did it.

College was just not about the theoretical or practical learning but, helped me to believe in

myself. I developed communication and leadership skill which is an important part of professional life.

I am very thankful to each one of my subject faculties & especially the Principal, Ms. Dali Khanal and Managing Director, Mr. Suresh K.C. who have been very supportive throughout by academic journey in undergraduate level. Had there been no support from them I wouldn't have come so far.

After the graduation, the other phase of life started where I had to put all my learning and skills practically. I joined my first ever job at "Kundalini Durbar Banquet" as "Executive - Sales" which boosted my confidence level even more. Seeking for better opportunities, I am now at "Tigerland Safari Resort" as Executive-Sales and Reservation. I am committed to implement all my knowledge and learning so far to justify the position I am working at and to prove myself every time.

Last year, I joined this college and within one year, I have more confidence in my college and think it is far ahead of others. The environment here makes me feel like I am at home, not once, not twice but each and every time. The assurance given at the time of admission, I believe is the inner core of the life philosophies inherited by the college founders and leaders. I am sure this college assures the bright future of every student. Gateway not only is teaching me about the hospitality profession which I choose to enter but also teaching me to be a human.

It was not my will that had brought me to this college but after a year in this college, I must say that I have the will to come here every day, even in my off days. Gateway College of Professional Studies has surely changed my perspective towards my personal as well as professional life; in fact the life as a whole. The college environment is alluring and cozy; thanks to all the faculties, the staffs and the leaders of this college. It's not just a college, it's a family, it's Gateway, that's why it is different.

The words of every faculty inspire, encourage and give us energy. Students are encouraged to participate in every event & program organized here & Students have their own roles to make it a successful one. The field visits increase the intellectual capacity of the students regarding subject matters. Now I know "life isn't about finding yourself, it is about creating yourself." I am proud to be a Gatewayer.

I was just a grade 12 graduate having no idea of my future education. Upon visiting Gateway College, I was fortunate to be counseled by the Principal. I was already a fan of her. I got the inspiration from her then joined the college in hope that I could learn a lot from her and then become a part of Gateway College.

Like a Chef prepares a wonderful dish using the skills

using everything from a scratch, Gateway College prepared me from a scratch and gave me many opportunities. Today, here I am, tasting all the goodness. I am proud to tell that I am part of Gateway College. I would like to thank the team Gateway including the faculties who were always there to support me with love and care.

At first, I was confused on whether to move my steps towards Gateway or fly to US/ Australia for further studies like most of my friends were doing, and like the trend was and is in our country. But, I decided to visit Gateway once and then my perception towards my life changed. I had visited there with hundreds of questions in my head. Fortunately, I met the Principal and then and there only I got to know that this is where I wanted to be; I became a Gatewayer.

Carrying the urge to mould up myself and attain my dream goals I had been visiting college regularly & Gateway acted as the cornerstone for me and my growth. Throughout the journey in Gateway, I got entangled in a wide range of activities that helped me boost up and progress much more than I expected. I had the opportunity to gain high quality education and unique experiences. I came to realize the true importance of discipline, rules and norms and in addition to that I came to know the value of grooming yourself, proper etiquettes and good habits.

The college provided such a structured challenging environment which I found to be exciting and fun to function in it. The honorable and respected faculties motivate every student to set and reach short and long term goals. I thank the whole team in Gateway College of Professional Studies for my growth, maturity and worthwhile transition. Plus, I learnt so much from my college mates in and outside the classroom.
