We egg students on to make both individual and group presentations. Activity we do here is based on “PUTTING STUDENTS FIRST” so that they can explore themselves beyond text books and can have a solid foundation in critical skills of thinking, communicating and problem solving.

“Innovative student centered teaching techniques” is applied as a teaching methodology. In addition to the formal classes, workshops and seminars, we frequently conduct different programs for students such as public speaking, personality development, leadership development, and career counseling and talk programs on various emerging subjects and burning issues.
