# ABOUT US

MHCM Class of Fall 2024

## National Open College: Pioneering Healthcare Management in South Asia

Founded in 2000 A.D., National Open College (NOC) proudly stands as the first and leading institution for healthcare management education in South Asia. For over a quarter of a century, we have remained at the forefront of a bold mission: to transform the landscape of healthcare, public health, and business in Nepal, while inspiring change across the region.

From the very beginning, NOC has been more than just an academic institution - we are a movement, driven by the belief that skilled, ethical, and visionary professionals are the backbone of a healthier and stronger society. Our innovative programs blend rigorous academics with real-world experience, producing graduates who don't just join the workforce - they shape it.

Over the past 26 years, our alumni network has grown to over 3,500 accomplished professionals. They serve as CEOs, top consultants, entrepreneurs, directors, and change-makers in leading hospitals, multinational corporations, government ministries, INGOs, and dynamic startups. These leaders are driving innovation, improving systems, and elevating the standard of healthcare and business throughout Nepal and beyond.

As we celebrate 26 years of excellence and impact, we invite you to become part of this enduring legacy. At NOC, you won't just earn a degree - you'll gain the knowledge, skills, and confidence to build a future that matters. Join us in shaping the next chapter of healthcare and business leadership. The future begins here.

# COLLEGE FACTS

**SINCE 2000 A.D.**

**3500+ Graduates**

**400+ Students**

**65+ Faculty**

**MHCM - 40<sup>th</sup> Batch**

**PGDHCM - 33<sup>rd</sup> Batch**

**BHCM - 26<sup>th</sup> Batch**

**BBA - 25<sup>th</sup> Batch**

**BPH - 17<sup>th</sup> Batch**

"Joining National Open College (NOC) was a pivotal decision in my academic journey. The BHCM program perfectly matched my goal to work in healthcare without direct patient care. NOC's credibility, friendly environment, and dedicated teachers made learning enjoyable. Beyond the classroom, activities like seminars, hospital visits, and internships gave me the skills and confidence for a career in healthcare management. I wholeheartedly recommend NOC to anyone aspiring to enter this field - it truly prepares you for success"

**PRAKRITI DHUNGANA, BHCM 2019**

University Topper

"I would highly recommend future students to join National Open College because it offers quality education, experienced faculty and a supportive learning environment. Plus, the flexibility of the programs allows you to customize your learning experience"

**Shivani Dhakal, BPH 2021'**

**Participatory Approach,** At National Open College, we embrace a participatory approach to education, ensuring that students, faculty, and the community actively shape the learning experience. This approach fosters collaboration, empowers students, and promotes a sense of ownership in their education. By involving everyone in curriculum design, decision-making, and real-world projects, we create an environment where learning is dynamic, relevant, and tailored to the needs of all stakeholders. Students graduate with the knowledge, skills, and confidence to succeed in their careers and contribute to society.

## Dipendra Pokharel

Degree: MHCM, PGDHCM

Graduated: 2014

Center for Preoperative  
Care, Massachusetts  
General Hospital  
Boston, MA, USA

*"Joining the PGDHCM program at National Open College was a golden opportunity that shaped my career and personal growth. After graduation, I was privileged to serve as a part-time lecturer, giving back to the institution that built my foundation. The knowledge and experiences I gained opened doors to Massachusetts General Hospital, Boston, where I proudly represent Nepal on an international stage. I encourage aspiring healthcare leaders to choose National Open College -it truly equips you to make a difference."*

## Rishee Prasad Sapkota

Degree: MHCM, PGDHCM

Graduated: 2018 & 2009

Co-founder &  
Executive Administrator  
DI-Skin Hospital,  
Budhanilkantha

*"I deeply appreciate National Open College (NOC) for its pioneering role in Healthcare Management education in Nepal, producing skilled professionals who are driving positive change. The college's focus on quality education, practical training, and flexible learning has empowered many, including working professionals, to advance their careers. I fulfilled my dream of studying at NOC, earning a PGDHCM and MHCM, which greatly enriched my professional journey. The knowledge I gained has been instrumental in my role as Executive Administrator and co-founder of DI Skin Hospital and Referral Center."*

## Dr. Ram Thapa Chhetri

Degree: MHCM, MBBS

Graduated: 2017

Nepal Government Insurance  
Board  
Former Hospital Manager  
Hetauda Hospital

*"I am incredibly grateful for my time at National Open College. It was truly a life-changing experience that has shaped my journey. Earning my MHCM degree is a significant milestone in my life, empowering me to become an effective leader in Nepal's healthcare sector for the welfare of our people."*

## Suvash Regmi

Degree: BHCM

Graduated: 2014

Informational Analyst,  
National Health System  
Surrey  
United Kingdom

*"National Open College gave me the perfect blend of academic foundation and practical exposure to start my career in healthcare while still studying. The flexible learning, supportive faculty, and hospital partnerships helped me grow professionally and personally. The skills I gained continue to guide me as I advance my career and pursue further studies."*

## Gauri Kumari Gharti Magar

Degree: BPH, MA Sociology

Graduated: 2018

Public Health Officer  
Health Service  
Kalikot

*"National Open College gave me the perfect blend of academic foundation and practical exposure to start my career in healthcare while still studying. The flexible learning, supportive faculty, and hospital partnerships helped me grow professionally and personally. The skills I gained continue to guide me as I advance my career and pursue further studies."*

## Poonam Chaurisya

Class: MHCM Fall 2024

Background:

BMLT

University Topper

MHCM I Fall 2024

"I chose to join National Open College (NOC) because it promotes access to learning that enhances both educational and employment opportunities. As someone associated with Kathmandu Hand Center, I found the MHCM program ideal for gaining the managerial skills needed to lead effectively. What makes NOC special is that it not only strengthens our academic knowledge but also develops our soft skills and encourages participation in sports and extracurricular activities. I highly recommend NOC to students, as its experienced teachers, friendly staff, and various workshops, seminars, and conferences provide great support for skill development."

## Bibisha Rijal

Class: BPH 2024

Background:

PCL (Optometry)

"National Open college is one of the best college for BHCM and BPH in town. I joined the college because of its goodwill and quality of education they provide. I specifically chose BPH due to its wider scope nationally as well as globally. I have always been passionate about the condition and improvement of health of people of our country. So being a health professional beforehand (Ophthalmic assistant), I was extremely passionate to give back to the community, so BPH is the best option."

## Bada Babu Shah

Class: BPH 2023

Background:

HA (Health Assistant)

"I chose BPH because I've always wanted to work for people's health and my community, focusing on prevention over cure. National Open College is preparing me through real exposure to public health programs, surveys, report writing, and confidence-building activities. I'm proud to be part of NOC, which is shaping me into a skilled public health professional ready to bring positive change to society."

## Apekshya Raut

Class: BHCM 2024

Background: +2 Science

Semester Topper

BHCM I Fall 24

"National Open College truly feels like home to me. The environment is nurturing, supportive and academically rich. Our faculty members are kind, helpful and always encouraging, the college constantly pushes us to grow through expert interactions, extracurricular activities, and real world exposure. Surrounded by passionate academicians and with a resourceful library as my favourite spot, I genuinely feel cared and inspired here. I am proud to be a part of this family and even more eager to explore my upcoming journey here with my beautiful classmates."

## Sunanda Basnet

Degree: BHCM 2024

Background: +2 Science

Semester Topper

BHCM I Fall 24

"I chose NOC because of its strong focus on practical knowledge, experienced faculty and a curriculum that prepares students for real world challenges especially in field of healthcare management. The college provides us opportunities for personal growth through seminars, projects and internships. I recommend NOC college to future students for like its commitment to academic excellence, career focused programs and the welcoming atmosphere that helps every student thrive."

# Academic Resources

# WORKSHOP & SHORT COURSE SERIES

**NATIONAL OPEN COLLEGE**  
First College in South Asia for Healthcare Management

**WORKSHOP ON  
HOSPITAL  
OPERATIONS  
MANAGEMENT**

Will be conducted on :

**FIRST WEEK OF  
APRIL & NOVEMBER**

**05:30 PM - 8:00 PM**

**COST RS 10,000 PER  
INDIVIDUAL**

More Information:  
noc.edu.np  
9813342182

**26  
YEARS  
OF  
EXCELLENCY**

Sanepa, Ringroad Lalitpur

This intensive one-week workshop, comprising nine comprehensive modules, is designed to equip participants with both foundational theories and hands-on practical tools essential for effective hospital operations management. The program covers critical topics such as Supply Chain Management, Lean Six Sigma methodologies, quality improvement, and resource optimization. Through a blend of lectures, case studies, and interactive activities, participants will gain the skills needed to streamline hospital processes, reduce waste, and drive operational excellence. By the end of the workshop, attendees will be well-prepared to lead initiatives that improve efficiency, patient outcomes, and innovation within modern healthcare settings.

This intensive short course equips participants with essential knowledge and skills to understand, plan, and implement disaster management strategies in healthcare settings. Covering key topics such as disaster concepts, hospital preparedness, evacuation planning, public health impacts, and Nepal's disaster management framework, it prepares you to respond effectively to natural and man-made emergencies. Interactive sessions include lectures, case studies, and group discussions designed for immediate practical application.

**NATIONAL OPEN COLLEGE**  
First College in South Asia for Healthcare Management

**SHORT COURSE ON  
SAFETY & DISASTER  
MANAGEMENT**

Will be conducted on :

**FIRST SATURDAY OF  
NOVEMBER & APRIL**

**09:15 AM - 4:00 PM**

**COST RS 5,000 PER  
INDIVIDUAL**

# Masters in Healthcare Management (MHCM)

National Open College pioneered South Asia's first Master's program in Healthcare Management in 2000. With 600+ graduates and 40<sup>th</sup> Current Batch, we blend academic excellence with practical expertise, equipping students with essential soft and technical skills for modern hospital administration, public health leadership, healthcare consulting, research, and entrepreneurship. Join us in shaping the future of healthcare through innovation, collaboration, and excellence.

## Scope

The MHCM program at National Open College equips graduates with the knowledge, skills, and leadership capabilities to excel in the dynamic and growing healthcare industry. With the rapid transformation of Nepal's health sector, there is an increasing demand for competent healthcare managers who can lead hospitals, public health systems, and health-related organizations with professionalism and innovation.

**Dr. Indra Kumar Shrestha**  
Class: MHCM Spring 2023  
Degree: MD-Anesthesiology, MBBS  
Anesthesiologist  
(Perioperative Physician)  
Nepal Medcity Hospital

*I chose the MHCM program at National Open College for its strong reputation, flexible learning, and practical curriculum that aligns with my goal of advancing in healthcare administration. The program's hands-on approach and expert faculty have equipped me with valuable skills and confidence for leadership roles. National Open College has truly exceeded my expectations and been key to my professional growth.*

**Dr. Lesion Maharjan**

**Class: MHCM Fall 2023**

**Degree: MS- ENT, MBBS**

*Assistant Professor/ ENT Surgeon  
Patan Academy of Health Sciences*

*I chose National Open College to deepen my understanding of healthcare systems beyond clinical practice while managing my role as Joint Secretary at the Nepal Medical Association. The MHCM program balances flexibility and rigor, bridging clinical expertise with administrative leadership and strengthening my knowledge in health financing and governance. Learning alongside diverse professionals has enriched my perspective and equipped me with the skills and confidence to advance into healthcare management roles.*

# Masters in Healthcare Management (MHCM)

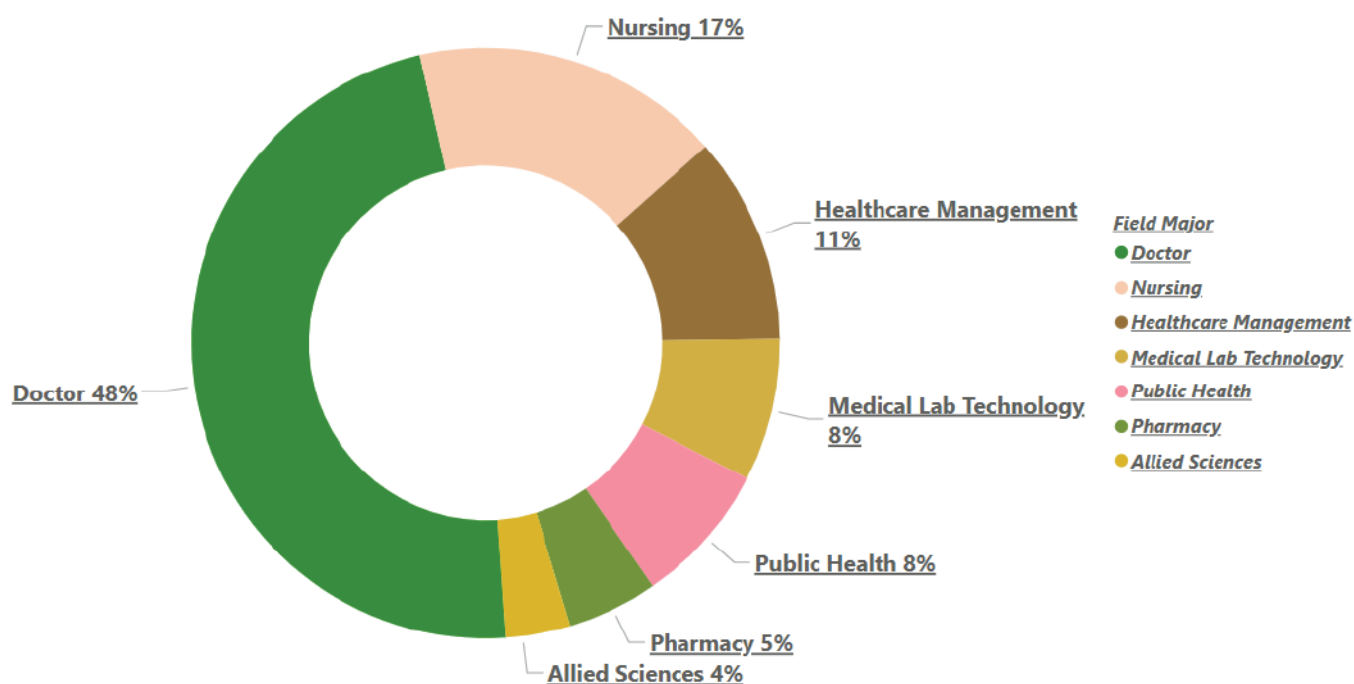

## Key Opportunities

- **Hospital Administration & Management**
  - CEO, Hospital Director, Operations Manager, Quality Officer, or Department Head in public and private hospitals (managing specific clinical or non-clinical departments (e.g., Emergency, ICU, Pharmacy, Radiology, HR, Finance)).

- **Academia & Research**
  - Lecturer, Academic Coordinator, or Researcher in universities, think tanks, and health institutes.
- **Entrepreneurship & Innovation in Health**
  - Start or manage health-tech ventures, private clinics/hospitals, diagnostic centers, telehealth platforms, or community health enterprises.
- **Government & Think Tanks**
  - Policy Expert, Program Coordinator, Planning & Research Officer, Evaluation & Monitoring Manager, Health Policy Analyst, contributing to health policy development and implementation.
- **Health Insurance & Financing**
  - Health Insurance Manager, Claims Analyst, Financial Controller for healthcare institutions

# Masters in Healthcare Management (MHCM)

## *Class Profile (Spring 2023 to Spring 2025)*

### **Class Profile (Spring 2023 – Spring 2025)**

Our student body for the period Spring 2023 to Spring 2025 spans 5 semesters, with a total of 141 students enrolled. The Spring 2023 cohort has successfully graduated, while students from subsequent intakes continue their studies. Nearly 50% of our students hold professional degrees in medicine and dentistry (MD/MBBS/BDS). The remaining half represent a diverse mix of healthcare backgrounds, including:

- Nursing
- Healthcare Management (PGDHCM / BHCM)
- Medical Lab & Imaging Technology
- Public Health
- Pharmacy
- Allied Health Sciences

This multidisciplinary composition reflects our commitment to fostering a rich, collaborative learning environment that brings together professionals from across the healthcare sector.

Hospital Pvt. Ltd.

***With nearly 19 years of experience in healthcare, I have seen firsthand how Nepal's healthcare system faces deep-rooted and interconnected challenges. Addressing these issues requires sustained political will, greater investment, strategic planning to bridge the urban-rural divide, and a strong focus on building a resilient, equitable system for all citizens. A high-quality healthcare college in Nepal should not only produce graduates but also be a powerful force for change, tackling these systemic challenges. In this regard, National Open College (NOC) - the pioneer of healthcare management education in South Asia - fulfills its mission of "Education, Innovation, and Service" and I am proud to say that this is why I chose to join NOC.***

# **Post Graduate in Diploma Healthcare Management (PGDHCM)**

Established in 2000, National Open College pioneered South Asia's first Post Graduate Diploma program in Healthcare Management. With 300+ graduates and 33<sup>rd</sup> Current Batch, we blend academic excellence with practical expertise, equipping students with essential soft and technical skills for modern hospital administration, public health leadership, healthcare consulting, research, and entrepreneurship. Join us in shaping the future of healthcare through innovation, collaboration, and excellence.

## **Scope**

The one-year PGDHCM program at National Open College prepares graduates with the essential knowledge, practical skills, and leadership acumen needed to thrive in Nepal's evolving healthcare landscape. As the country's health sector undergoes rapid transformation, the demand for skilled healthcare managers continues to rise. This program is designed to develop professionals capable of leading hospitals, public health systems, and health-focused organizations with innovation, competence, and integrity.

# Post Graduate Diploma in Healthcare Management (PGDHCM)

# Bachelor of Healthcare Management (BHCM)

National Open College introduced South Asia's first Bachelor's program in Healthcare Management (BHCM) in 2000. With over 600+ graduates and our 26<sup>th</sup> cohort underway, the program integrates academic excellence with real-world experience. We equip students with vital technical and soft skills to lead in hospital administration, public health, healthcare consulting, research, and entrepreneurship. Join us in shaping the future of healthcare through innovation, collaboration, and excellence.

## Scope

The BHCM program at National Open College prepares graduates with the knowledge, skills, and leadership qualities needed to thrive in Nepal's evolving healthcare sector. As the country's health system rapidly transforms, there is a growing need for capable healthcare managers who can lead hospitals, public health initiatives, and health-focused organizations with professionalism, innovation, and impact.

**Bindiya Shrestha**

**Class: BHCM 2020**

*University Topper Fall 2024*

*Background: +2 Management*

*Choosing National Open College was one of the best decisions for my academic and personal growth. I joined the BHCM program to build a meaningful career in healthcare, and NOC offers the perfect mix of theory, practical exposure, and mentorship. The supportive faculty, vibrant campus life, and opportunities for leadership make learning truly rewarding. If you want a college that genuinely prepares you for a successful healthcare career, NOC is the place to be!*

**Ram Raj Barakote**

**Class: BHCM 2022**

**Semester Topper Fall 2024**

*Background: PCL in General  
Medicine*

After completing my diploma, I discovered the Bachelor's in Healthcare Management program at National Open College (NOC) through its official Facebook page, and it felt like the perfect fit for my career goals. As a full-time employee at Jantra, I needed a college that balanced work and study - and NOC delivered with its supportive environment, experienced faculty, guest lectures, field visits, and internships. The interactive classes, friendly atmosphere, and focus on real-world application have boosted my confidence and leadership skills. I highly recommend NOC to anyone seeking quality education and professional growth in healthcare management.

# Bachelor of Public Health (BPH)

National Open College is proud to be Nepal's largest provider of Bachelor of Public Health (BPH) education, established in 2009. With a strong track record of academic excellence and practical training, we have prepared hundreds of graduates to become leaders in public health, healthcare management, research, and community development. Our program equips students with the technical knowledge, analytical skills, and leadership abilities needed to address today's health challenges. Join us to shape healthier communities through innovation, collaboration, and impact.

## Scope

The BPH program at National Open College prepares graduates to meet Nepal's evolving health needs. With growing demand for public health professionals, our graduates play key roles in improving community health, managing programs, conducting research, and shaping health policy. The program equips students with the knowledge, skills, and leadership abilities to succeed in government agencies, NGOs, hospitals, research centers, and international organizations - helping build healthier, stronger communities.

**Aniket Shah Kanu**

**Class: BPH 2024**

*Background: +2 Science*

***Joining National Open College has been one of the best decisions for my studies and future career. I chose the BPH program because I care about community health and want to help people live better lives. The college offers quality education with practical fieldwork, supportive teachers, and a positive, friendly environment. NOC not only builds our academic knowledge but also helps us grow through training, research, and skill-building activities. I highly recommend it to anyone who wants to learn, grow, and make a real difference.***
