**Introduction:**

This curriculum for “**Tailor master**” has been developed with a purpose of preparing technical workforce in the field of **tailoring who will be** able to get employment in the country. The technical skills incorporated in this curriculum come from the experts who have already worked **in field of tailoring**. Its contents are organized in the form of **modules**. So it is a tailor made curriculum to be implemented in a modular form.

It is a competency based curriculum too. It is also designed to produce lower level technical workforce in the field of **tailoring** equipped with skills, knowledge and attitudes related to **tailoring** technology in order to meet the demand of such workforce in the country so as to contribute in the national streamline of poverty reduction in Nepal.

**Aims**

The main aim of this curricular program is to produce skilled workforce in the field of **tailoring** by providing training to the potential citizen of the country and link them to employment opportunities in the country. The aims of this curriculum are:

- To produce **advance** level technical workforce in the field of **tailoring**
- To produce such technical workforce who will be able to provide serve through the application of the skills and knowledge of **tailoring** technology being as an entrepreneur.

**Objectives:**

After the completion of this training program, the trainees will be able:

- To handle/care for tools, materials, and machines
- To carry out related inspection and designing activities
- To carry out related measurement activities
- To carry out related cutting activities
- To carry out related sewing activities
- To carry out related checking activities
- To carry out related finishing activities
- To prepare **ladies dresses**
- To prepare **gents dresses**
- To carry out job related management activities

**Description:**

This curriculum provides skills and knowledge necessary for “**Tailor master**”. There will be both demonstration by trainers/instructors and opportunity by trainees to carry out the skills/tasks necessary for this level of technical workforce. Trainees will practice and learn skills by using typical tools, materials and equipment necessary for this curricular program.

On successful completion of this training, the trainees will be able to **carry out skills related to inspection, designing, measurement**, cutting, sewing, checking, and finishing various types of items of ladies and gents dresses/clothes.

## Course structure

(Tailor master)

Job title: Tailor master			Time (hrs.)			Marks		
SN	Modules	Nature	Th.	Pr.	Tot.	Th.	Pr.	Tot.
1.	Tools, materials, and machines	T+P	2	8	10	3	12	15
2.	Tailoring basics	T+P	38	160	198	20	80	100
	1. Inspection and designs	T+P	8	40	48			
	2. Measurement	T+P	2	12	14			
	3. Cutting	T+P	12	48	60			
	4. Sewing	T+P	12	48	60			
	5. Checking and finishing	T+P	4	12	16			
3.	Ladies dresses	T+P	19	76	95	20	80	100
4.	Gents dresses	T+P	16	64	80	15	60	75
5.	Management	T+P	3	4	7	2	8	10
	<b>Sub total:</b>		<b>78</b>	<b>312</b>	<b>390</b>	<b>60</b>	<b>240</b>	<b>300</b>
6.	Common module	T + P	14	56	70	10	40	50
	1. Applied math	T + P	4	16	20			
	2. Occupational health and safety	T + P	2	8	10			
	3. First aid	T + P	1	4	5			
	4. HIV/AIDS	T + P	1	4	5			
	5. Communication	T + P	2	8	10			
	6. Small enterprise development	T + P	4	16	20			
	<b>All total:</b>		<b>92</b>	<b>368</b>	<b>460</b>	<b>70</b>	<b>280</b>	<b>350</b>

**Duration:**

The total duration of this curricular program will be of **three months [390 hours] plus common module of 70 hours.**

**Target group:**

The target group for this training will be all the interested **literate** individuals of the country **with basic training and experience on tailoring**

**Group size:**

The group size of this training program will be not more than 30

**Target location:**

The target location of this training program will be all over Nepal.

**Medium of Instruction:**

The medium of instruction for this training program will be Nepali or English or both.

**Pattern of attendance:**

The trainees should have 80% attendance in theory classes and 90% in Practical (Performance) to be eligible for internal assessment and final examinations.

**Focus of the program:**

This is a competency based curriculum. This curriculum emphasizes on competent performance of the task specified in it. Not less than 80% time is allotted to the competencies and not more than 20% to the related technical knowledge. So, the main focus will be on the performance of the specified competencies/tasks /skills included in this curriculum.

**Entry criteria:**

Individuals who meet the following criteria will be allowed to enter in this curricular program:

- **Literate with basic training and experience on tailoring**
- Physically and mentally fit
- Age- Minimum of 16 years
- Preference will be given to female, Dalit, Janjati, and Conflict affected people

**Follow up suggestion:**

This is not a training program only for training sake. The ultimate success of this program will rest on the proficiency of the graduates of this training program in providing services in the community either by wage employment or by self-employment.

In order to assess the success of this program and collect feedbacks/inputs for the revision of the program, a schedule of follow up is suggested as follows:-

- First follow up: - Six months after the completion of the training program.
- Second follow up: - Six months after the completion of the first follow up.
- Follow up cycle: - In a cycle of one year after the completion of second follow up for five years.

**Certificate requirement:**

The related training institute will provide the certificate of “**Tailor Master**” to those individuals who successfully complete all the tasks with their related technical knowledge specified in this curriculum.

**Student Evaluation Details:**

- Continuous evaluation of the trainees’ performance is to be done by the related instructor/trainer to ensure the proficiency over each competency.
- Related technical knowledge learnt by the trainees will be evaluated through written or oral tests as per the nature of the content
- Trainees must secure minimum marks of 60% in an average of both theory and practical evaluations.

**Trainers’ Qualification:**

- Advance diploma in tailoring
- Experienced in the related field as a trainer
- Good communicative & instructional skills.

**Trainer – Trainees Ratio:**

- 1:10 for practical classes
- Depends on the nature of subject matter and class room situation for theory classes.

**Suggestion for instruction****Demonstrate task performance**

- Demonstrate task performance in normal speed
- Demonstrate slowly with verbal description of each and every steps in the sequence of activity flow of the task performance using question and answer techniques
- Repeat the above step for the clarification on trainees demand if necessary.
- Perform fast demonstration of the task performance.

**Provide trainees the opportunity to practice the task performance demonstrated.**

- Provide trainees to have guided practice:- create environment for practicing the demonstrated task performance and guide the trainees in each and every step of task performance
- Provide trainees the opportunity to repeat & re-repeat as per the need to be proficient on the given task performance
- Switch to another task demonstration if and only if the trainees developed proficiency in the given task performance

**Evaluation performance of the trainees/ student**

- Perform task analysis
- Develop a detail task performance check list
- Perform continuous performance evaluation of the trainees / students by applying the performance check list.

## **List of modules and sub modules**

**Module: 1: Tools, materials, and machines**

**Module: 2: Tailoring basics**

Sub module: 1: Inspection and designs

Sub Module: 2: Measurement

Sub Module: 3: Cutting

Sub Module: 4: Sewing

Sub Module: 5: Checking and finishing

**Module: 3: Ladies dresses**

**Module: 4: Gents dresses**

**Module: 5: Management**

**Module: 6: Common module**

## Details of modules and sub modules

Module: 1: Tools, materials, and machines						
	<b>Description:</b> It deals with the knowledge and skills related to the handling and care for tools, materials, and machines necessary for carrying out tailoring activities.					
	<b>Objectives:</b> After its completion the trainees will be able: <ul style="list-style-type: none"> <li>• To handle/ care for tools necessary for carrying out tailoring activities</li> <li>• To handle/ care for materials necessary for carrying out tailoring activities</li> <li>• To handle/ care for machines necessary for carrying out tailoring activities</li> </ul>					
	<b>Tasks:</b> To fulfill the objective the trainees are expected to get proficiency on the following tasks/skills/steps together with their related technical knowledge:					
	Th.(2 hrs) + Pr.(9 hrs) = Tot.(10 hrs)			Time( hrs )		
SN	Tasks or skills/ steps		Related technical knowledge	Th.	Pr.	Tot.
1.	<u>Handle sewing machine(single needle)</u> <ul style="list-style-type: none"> <li>• Receive instruction</li> <li>• Identify sewing machine(single needle) with its parts</li> <li>• List functions of each part of sewing machine(single needle)</li> <li>• Set sewing machine(single needle)</li> <li>• Handle sewing machine(single needle)</li> <li>• Operate sewing machine(single needle)</li> <li>• Care for sewing machine(single needle)</li> <li>• Take precautions</li> <li>• Keep records</li> </ul>		<u>Handling sewing machine(single needle):</u> <ul style="list-style-type: none"> <li>❖ Concept, need, importance, and application</li> <li>❖ Identifying sewing machine(single needle)</li> <li>❖ Setting sewing machine(single needle)</li> <li>❖ Handling sewing machine(single needle)</li> <li>❖ Operating sewing machine(single needle)</li> <li>❖ Caring for sewing machine(single needle)</li> <li>❖ Precautions to be taken</li> <li>❖ Records keeping</li> </ul>	0.10	0.39	0.49
2.	<u>Handle needle and thread</u> <ul style="list-style-type: none"> <li>• Receive instruction</li> <li>• Identify needle and thread</li> <li>• List functions of needle and thread</li> <li>• Apply needle and thread</li> <li>• Handle needle and thread</li> <li>• Care for needle and thread</li> <li>• Take precautions</li> </ul>		<u>Handling needle and thread:</u> <ul style="list-style-type: none"> <li>❖ Concept, need, importance, and application</li> <li>❖ Identifying needle and thread</li> <li>❖ Listing functions of needle and thread</li> <li>❖ Applying needle and thread</li> </ul>	0.10	0.38	0.48
